To Our Valued Customers

Hackney Ladish, Inc. manufactures and markets Weld Fittings per the specifications listed below. We certify our products to the following specifications as applicable:

Buttwelding Fittings ASTM/ASME A/SA 234, A/SA 420, A/SA 860, ASME B16.9, B16.25, and B16.28, NACE MR0175 and MR0103, MSS SP-25, MSS SP-75, and API 5L.

Conformance to these specifications is carefully controlled through the Hackney Ladish Quality System. We certify our fittings to meet all required hydrostatic tests. Burst test results are on file in our office. These products also conform to the requirements of parts 192 and 195, Title 49, Code of Federal Regulations.

No mercury or mercury bearing equipment is used in the manufacturing process. Products do not contain hazardous materials. Material safety data sheets are available upon request.

The diamond enclosing the capital H and the circle enclosing the capital L is the trademark of Hackney Ladish, Inc.

Physical properties and Chemical compositions as listed on Material Test Reports (MTR) are actual values that are to be compared to code requirements.

Sincerely,

Edward Hagerdorn

General Manager
